DEPARTMENTAL UPDATES

Police Department ó Chief of Police Bob Hervey stated for the month of May there had been 257 calls, seven Traffic Summons, 21 Criminal Summons and 15 Arrests. He also stated he didn't have the statistics for Animal Control. Discussion focused on how many applicants had applied for the vacant police department positions, with Chief Hervey stating two were being sent through testing for the officer position.

Public Works ó Public Works Superintendent Russell Overton stated United Companies had completed the patching. He stated 25,640,000 gallons of water had been pumped for the month of May and the reason the quantity pumped each month has seemed so low was due to the flow meter. Mr. Overton stated they were taking the readings from the wells now, instead of the main meter and were in the process of locating a rebuilt kit, but was unsure if they would be able to get parts due to the age of the meter or if they will have to redo that portion of the system. Mayor Etheridge inquired if the option was to redo that portion of the system, would it be a huge undertaking? Mr. Overton stated yes and would cost between \$20,000.00 to \$40,000.00 dollars, just for that portion, but was just an estimate.

Mr. Overton stated crack-filling had been completed as well as Meeker Clean-up Days for the elderly. He stated for the school project, Staff had 135 hours into the project to date. Mayor Etheridge inquired if the Sanitation Department had started their work, with Mr. Overton stating they had started that day. Trustee Gerloff stated the sewer line project by the fairgrounds seemed close to the bank where Sulphur Creek Road sits, inquiring if Mr. Overton had any idea of what would happen if there was movement.
